- In this retro-style arcade game, the player is invited to take on the character of Agent Mann - who is given the mission of tracking down and securing a series of dossiers containing high level 'Intel' on how to improve men's health.
- To succeed in his quest, Agent Mann has to move through three levels to locate and collect seven dossiers which are located in hard to reach places.
- Along the way, he has to learn how to move around in his environment and to use some of the gadgets and tools available to him. These include a grapple hook (for swinging up, down, backwards and forwards), a teleporter (in the form of an open door, which whisks our hero to another elevation), and ladders.
- There are a lot of obstacles and obstructions facing Agent Mann, and his path is often blocked by the henchmen of his nemesis [Mr O'Bese] who try to prevent him from uncovering this vital health information.
