*International Men’s Day 2014*
Did you know that it will be International Men’s Day on Wednesday 19th November 2014?... The theme for 2014 is ‘*Working Together for Men and Boys*’. There are six aims for this day: promote positive male role models; celebrate men’s contributions; focus on men’s health and well-being; highlight discrimination against males; improve gender relations and gender equality; create a safer, better world. To find out more, visit: [www.internationalmensday.com](http://www.internationalmensday.com)

*Movember is Here!*
During the month of November each year, ‘Movember’ is responsible for the sprouting of moustaches on men’s faces in Ireland and around the world. The aim of this month is to raise funds for, and awareness of, men’s health. Visit [http://ie.movember.com](http://ie.movember.com) or [http://uk.movember.com](http://uk.movember.com) for more information on Movember on the island of Ireland.
Building the Community-Pharmacy Partnership: Level 2 Funding Available
The Community Development and Health Network (CDHN) has opened a new round of funding through their Building the Community-Pharmacy Partnership (BCPP) programme. They are seeking new community-pharmacy partnerships throughout Northern Ireland, and will continue to support partnerships that were previously involved. The BCPP programme supports local communities to work in partnership with community pharmacists to address local health and social wellbeing needs using a community development approach. Level 2 funding is for those who have a clear vision of what the project wants to achieve, and consists of a maximum of £10,000 for a project that can last up to two years. Level 3 funding is also available to those who have completed several Level 2 projects. The closing date for applications is Thursday 13th November 2014. Application packs can be downloaded from www.cdhn.org/bcpp For further information, Tel: 02830 264606.

Active Ageing Programme
Being physically active on a regular basis is one of the healthiest things that you can do. Studies have shown that exercise provides many health benefits, and that older adults can gain a lot by staying physically active. The South Eastern Trust's Health Development Department has teamed up with Ards Borough Council, Lisburn City Council and North Down Borough Council's Leisure Services to design and develop an Active Ageing programme specifically for older adults. The programme aims to give as many older people as possible the opportunity to experience enjoyable, appropriate, and sustainable physical activities (including walking football) in a safe, friendly, supportive and fun environment. It is hoped that this will help to improve their health, wellbeing and independence. The Active Ageing programme will run for a period of 12 months across the councils' main leisure sites. DHSSPS Adds New Statistical Information Section to its Website
The Department of Health, Social Services and Public Safety (DHSSPS) recently announced the launch of a new statistical information section on their website. Based around health and social care themes, the new site includes information on hospitals, community and primary care, inequalities, public health, and performance measures at various geographic levels. It encourages users to explore the information using a range of infographics and interactive visual tools, and to download data for further analysis. A search function has been developed for both statistical reports and downloadable data tables. End users can search the document of interest by theme, topic, year of publication and / or keyword search. This enhanced search facility will enable users to quickly find the information that they require. The site can be accessed at: www.dhsspsni.gov.uk/index/statistics.htm

Little Things Can Make a Big Difference
On Monday 20th October 2014, Kathleen Lynch TD, Minister for Primary Care, Social Care and Mental Health, launched the HSE National Office for Suicide Prevention’s new mental health campaign titled: ‘The Little Things’. This initiative was created in partnership with over 25 organisations working in the area of mental health in Ireland. The campaign highlights that we all experience difficult times in our lives and that, when we do, there are some simple, evidence-based, little things that can make a big difference to how we feel. It answers two key questions: (1) What can I do? (2) Where can I go? A new website (www.yourmentalhealth.ie) provides a wealth of online resources, including information on mental health issues, top tips for little things that can make a difference, real life stories, and a comprehensive database of mental health support services in Ireland. These services are searchable by both location and topic, and this new interactive online resource is mobile, tablet and desktop friendly.
Events

Get Men Talking Campaign 2014
You are invited to get active in managing your health by attending ‘Get Men Talking’ - a free health information and cancer awareness event to mark the Marie Keating Foundation’s Men’s Health Month. This launch will feature a panel discussion with Tony Ward (rugby legend and prostate cancer survivor), Prof John McCaffrey (Consultant Oncologist) and Prof Niall Moyna (School of Health and Human Performance, Dublin City University). ‘Marathon Man’ Gerry Duffy will give a special presentation on motivation, and Chris Donoghue, from Newstalk Breakfast, will act as MC. This event will take place on Tuesday 4th November 2014, at 6.30pm, in the Aviva Stadium, Dublin 4. To register, Email: info@mariekeating.ie or visit www.mariekeating.ie for more information. Please note that places are limited.

Five Ways to Wellbeing
Would you like to learn more about promoting emotional health and wellbeing? ... If so, join Nic Marks, Founder of the Centre for Wellbeing at the New Economics Foundation, to hear about the ‘Five Ways to Wellbeing’ and how you can use this concept to effectively engage with others. This event will take place in Lough Neagh Discovery Centre, Lurgan, Co. Armagh, on Thursday 6th November 2014, from 9.30am - 4.00pm. Training

Pathways to Health Training
The Community Development and Health Network (CDHN) is delivering Level 2 and Level 3 training in ‘Pathways to Health’. Level 2 training is designed for people who are engaging with local communities to address a range of social and inequality issues. Level 3 is delivered as a series of master classes (one per fortnight, for 14 weeks) and has been developed for individuals who have a strategic and policy development role within their organisation. Booking and further information is available at: www.cdhn.org/pages/index.asp?title=Pathways_to_Health_Training_Dates_2014_2015

Promoting Wellbeing Training Courses - SHSCT
Seven Key Questions for a Better Life
Throughout Autumn 2014, the Men’s Development Network (MDN) will be delivering their highly successful ‘Seven Key Questions for a Better Life’ training throughout Ireland. This day is facilitated in an open, friendly and experiential way, and draws upon discussion, group work and presentations to explore relevant topics. These questions can be used in a number of settings to positively address issues which impact upon men’s lives, and to map next steps to a better life. The training provides a valuable insight into why supporting men is crucial; demonstrates successful ways to support men; and highlights best practice for engaging men with health and life issues. For further information, contact Lorcan Brennan (Email: lorcan@mens-network.net | Mobile: 086 3619884) or Martin Doheny (Email: martin@mens-network.net | Mobile 087 318 0156).

Research

Male Carers: Husband, Partner, Dad, Son, Carer?
More than four in ten (42%) of the UK’s unpaid carers are male. The report ‘Husband, Partner, Dad, Son, Carer?’ looks into the experiences and needs of male carers, in order to raise awareness of the fact that they may not be getting the support that they need. The Carers Trust and the Men’s Health Forum carried out a survey of male carers at the start of 2014. 609 male carers from across the UK took part. The report found that: more than one in four male carers in employment would not describe or acknowledge themselves as a carer to others - meaning they may not get the support they need at work; over half of the male carers surveyed felt that the needs of male carers were different to those of female carers - many citing that men find it harder to ask for help and support, and that balancing work and caring is challenging, particularly if they are the main earner; one quarter of men surveyed cared for more than 60 hours per week and worked; four in ten male carers said that they never had a break from their caring role; 56% of male carers aged 18-64 said being a carer had a negative impact on their mental health, and 55% said that their health was ‘fair or poor’.
