Men’s Health Week 2016 - A Date for Your Diary
Have you got your new diary for 2016 yet? ... If ‘yes’, that’s great. If ‘no’, then rush down to your local Pound / Euro Shop and pick-up a reduced price one as soon as possible - because there’s a date that you need to get into it! International Men's Health Week (MHW) always begins on the Monday before Father's Day and ends on Father's Day itself. This year, it will run from Monday 13th until Sunday 19th June 2015. MHW is celebrated in most European countries, as well as in the USA, Canada, Australia, New Zealand and a number of other places worldwide. The overarching aims of MHW are to: heighten awareness of preventable health problems for males of all ages; support men and boys to engage in healthier lifestyle choices / activities; encourage the early detection and treatment of health difficulties in males. Each year, there is also a specific focus. This year, the theme for the island of Ireland is: ‘Men United - for health and wellbeing’. In a similar vein to the Summer of Sport (Euro Football Finals and Olympics), the key question that we all need to ask is: ‘Are we winning?’ So, why not put these dates into your new diary, and start thinking about how your group / workplace / church / community / sports club … could do something to mark this week?
All-Island Planning Group for Men’s Health Week
Would you like to help to shape Men’s Health Week (MHW) this year? If ‘yes’, then why not contribute to the second all-island Planning Group for MHW 2016? Every year, the Men’s Health Forum in Ireland (MHFI) hosts a number of meetings (some face-to-face and some via video-conference between Dublin and Belfast) to discuss the week and develop ideas. The second meeting of this body will take place on the morning of Thursday 25th February in Dundalk, Co. Louth. If you would be interested in contributing to the planning process, contact Colin Fowler at: colin@mhfi.org. As space is very limited, prior booking is essential.

‘Weight-Mate’ App
In January 2016, Minister for Health Leo Varadkar launched safefood’s ‘Weight-Mate’ App. This App aims to help adults to lose weight in a healthy way through goal setting, planning to eat healthy, balanced meals, and regular exercise. The App monitors exercise and nutrition goals, and motivates the user to accomplish these goals. It features over 400 recipes developed by safefood’s nutritionists to cater for individual weight loss needs. There is also a ‘Groups’ feature - for communities, workplace groups, families or friends to work together to achieve their goals. ‘Weight-Mate’ is free to download for iPhone and Android. For more details, visit: www.safefood.eu/Healthy-Eating/Weight-Loss/weight-mate.aspx

Online Lung Health Checker
The Irish Cancer Society recently launched their Lung Cancer Awareness Campaign. As part of this, they have developed an online Lung Health Checker which helps the user to find out how healthy their lungs are and to learn more about the symptoms of lung cancer. But why is this needed? Well, lung cancer is the leading cause of cancer death; 64% of lung cancer patients were diagnosed at an advanced stage; with early detection, patients can have more effective treatment options. To have a look at the checker, visit: www.cancer.ie/lung/checker

It will take place on the morning of Friday 4th March 2016, in the Tommy Makem Arts and Community Centre, Keady, Co. Armagh. Participants will: hear from Professor Niall Moyna, Head of School of Health and Human Performance at Dublin City University; get valuable insights into healthy eating and looking after your emotional wellbeing; have the opportunity to try Spin, Taekwondo and Chi Me; witness the power of laughter; be offered health checks; get a great lunch. Training

Family Mediation Training - Spring 2016

Family Mediation NI (FMNI) is the lead service provider and training organisation for family mediation in Northern Ireland. This Spring, they are inviting eligible candidates (maximum 12 places) to apply for Stage One of the three-step comprehensive training route to accreditation as a Family Mediator recognised in the United Kingdom and Ireland. The mediation service offered by FMNI focuses on the needs of the children of separating couples. FMNI offers separating couples the opportunity to reach their own agreements during and after separation about their children, finances and living arrangements. This is widely accepted as a more sustainable outcome than one imposed on them by, for example, the Court process. FMNI also offers mediation for other intra-family disputes. The first step to becoming an accredited family mediator is to successfully complete the Foundation Training Programme (FTP). FMNI is approved by both The College of Mediators (UK) and The Mediators’ Institute of Ireland (MII) to deliver a programme comprised of both generic mediation training and a specialist element for working with separating couples. FMNI is offering the twelve day FTP (Stage One) over six two-day modules in Belfast. For more information, see: www.familymediationni.org.uk/training-careers/training

Supporting Dads Survey

Dads Direct is a group which aims to promote the value of actively engaged fathers in their children’s lives. It is comprised of representatives from Contact Centres, Family Mediation NI, Home-Start NI, Men’s Health Forum in Ireland, Parenting NI, Relate NI and Sure Starts. Dads Direct is conducting a short online survey which seeks the views of policy makers, service providers, family work practitioners and dedicated father-workers. The aim of this survey is to identify and collate information which can be used to inform and influence how fathers are supported in our society. The findings will help to provide evidence of need, as well as address gaps in policy, practice, training and research. The survey takes no longer than 10 minutes to complete, and the respondent will remain completely anonymous throughout. To take part, visit: www.surveymonkey.co.uk/r/supportingdads

Boys, Young Men and Violence - Masculinities, Education and Practice

In this new book, which draws upon data collected over an 18 year period with more than 1000 boys, Dr Ken Harland and Prof Sam McCready (Community Youth Work, Ulster University) provide a revealing insight into the lives and development of young men. Examining the particular pressures that impact upon young men such as masculinity, marginalisation, male youth sub-culture, and what are acceptable and unacceptable levels of violence, they present the voices and experiences of men from a range of community backgrounds and cultural traditions in Northern Ireland.
